

## MERRY CHRISTMAS!

Happy Holidays to you! We hope the past year has brought you many blessings.

The highlight of our year was most certainly our trip to Alaska. The trip brochure promised glaciers, bears and a whale (watching) of a good time. Matthew, now 4 years old, was not disappointed.

Hope things are well with everyone. May you have a Merry Christmas and a happy New Year!

PETE, JESSIE

# BACKER OPTIONS

Add photos, a message, or a pattern to the back of your card for no extra charge.

Don't like making decisions? No problem! There is a pattern backer design that goes with every holiday card.

Or browse the next pages to find all the options available to customize the backer to your heart's content!

# INK COLORS

You can order a design in its featured color combination or choose colors from Banter & Charm's color chart.

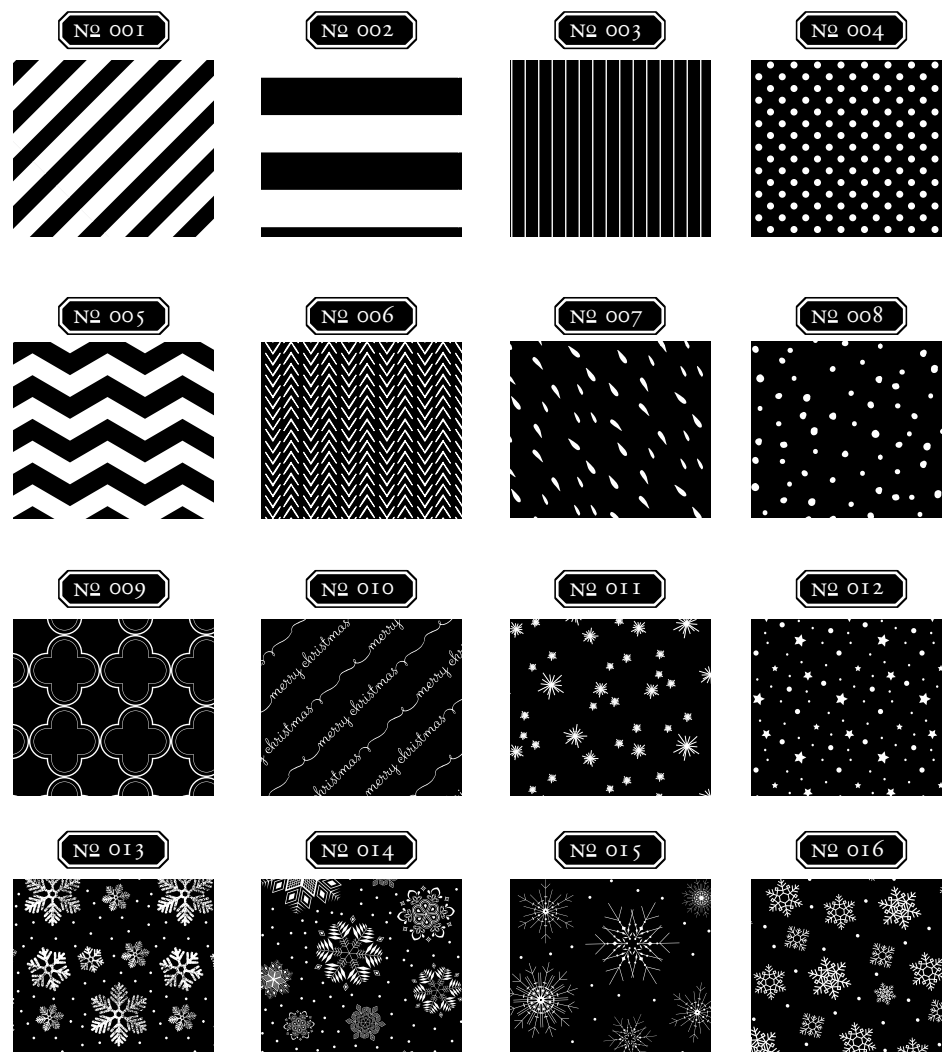

Custom matching a color from your photo is an option.

# PATTERNS

Choose from any of the patterns shown in the shop or featured below. The pattern can be slightly adjusted - for example, make the stripes thicker or thinner. You can also use faux chalkboard or faux kraft texture for your background.

You can use 2 colors per pattern.

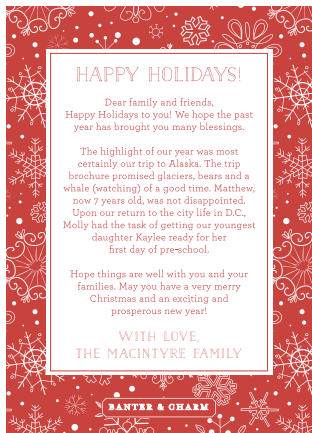

# COMBINATIONS

Once you've chosen your colors and patterns, you can add a photo, holiday message, or both! *If using a photo and a message, we recommend selecting a solid color for the background instead of a pattern.*

The following layouts can be customized with your own colors, photos, and greetings. Or keep it simple with a single photo!

*Please note that all backer designs will include the Banter & Charm logo.*

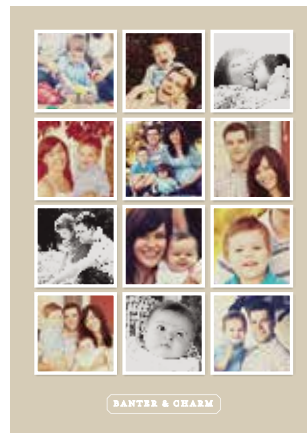

## 1) Message & Pattern

## 2) Photo & Pattern

## 3) Photo Collage

## 4) Photos & Chalkboard

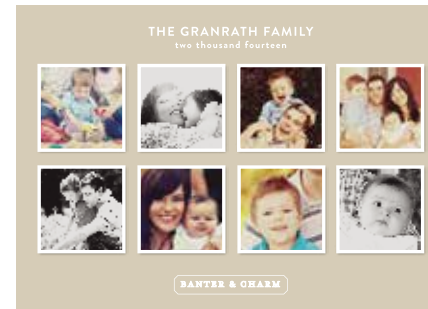

## 5) Message & Photo

## 6) Single Photo

## 7) Photo Collage 2

## 9) Photos & Chalkboard 2

## 11) Message & Photo 2
