Allow at least 4 weeks from start to ship for orders with letterpress or foil stamping. *Specialty finishing services, such as die cutting, envelope liner assembly, or address printing, require additional time.*

FLAT PRINTING

With flat printing, ink is transferred to paper by a digital printing press. The ink lays down flat on the paper leaving a smooth finish. Flat printing produces high quality prints in a wide variety of colors, making it ideal for photo cards, designs with multiple colors, or with large areas of color.

Pricing includes personalizing the design with your event details, colors, and photo (if a photo is used in the sample design), and printing on the back of the card. Blank square flap envelopes in your choice of white or kraft come with all orders. Red or green envelopes are available for holiday orders at an additional cost.

Flat print party invitations, announcements, and holiday cards are offered on 120# 20% cotton card stock in Brilliant White. Flat print orders include unlimited ink colors. Choose from the standard ink colors.

LETTERPRESS & FOIL STAMPING

With letterpress and foil stamping, ink or foil is transferred from a raised surface (a printing plate) to paper using the pressure from an antique press, creating impressions in the paper. A custom printing plate is created for each ink color, then paper is hand fed through the press one at a time. You can incorporate letterpress or foil stamping with flat printing to add texture or a bit of shine. Choose unlimited standard ink colors for the flat print portion of the design.

Pricing includes personalizing adesign with your event details and colors. Photos can be flat printed directly on the card, or professionally printed on matte photo paper and mounted to the card for an additional cost.
Blank pointed flap envelopes come with all orders.

Letterpress and foil stamping is offered on Fluorescent White or Pearl White 100% cotton paper in 110# cover weight. Letterpress and foil stamping are priced per ink or foil color. *Because a separate printing plate is made for blind letterpress, it counts as a "color" for pricing purposes.* Choose from the standard ink colors or foils in gold, rose gold, or silver.
