A NOTE ABOUT MONOGRAM ETIQUETTE

Traditional etiquette states that your married monogram should not be used until after the wedding ceremony. If you plan to follow traditional etiquette, save the single initial and three initial styles for after the wedding. Two initial styles (the bride and groom's first initial) are perfect for pre-wedding stationery like save the dates and invitations.

ONE INITIAL MONOGRAMS

Single initial monograms features the first initial of the couple's married last name.
